3 STEP CRYSTALAC - GEL POLISH

Extraordinary durability and fabulously vivid colors in 3steps

SENS BY CRYSTAL NAILS '3G POLISH'

MAXIMUM PIGMENTATION

SENS '3G POLISH' (GEL POLISH)
4ml

SENS '3G POLISH' (GEL POLISH) NAIL ART GÉLLAKKOK MAXIMÁLIS PIGMENTÁLTSSÁGGAL

These are thick and highly pigmented gel polishes. These 3 step CrystaLacs can cover the surface in just one thin layer. Made especially for gel polish decoration techniques. Colors can be mixed with each other, so you can create the required shades for any nail art and patterns. If you would like to weaken the colours or make them less vivid, we recommend you the Sens by Crystal Nails Gel Polish CLEAR 0. You can use it on the whole surface, but not the usual way as we use gel polishes: you have to get a small amount of material on the brush and push the brush a bit harder while you apply it on the surface. Use it in a thin layer and use a strong LED lamp for curing. Make sure, you cure them a little longer than the usual 3 Step CrystaLacs (especially the S007 Black). Cure time: 1-2 min (LED), 2-3 min (UV).

1. NEW! SENS CELEBRATION '3G POLISH' (GEL POLISH)
The SENS NAILS Celebration collection gives a reason to celebration by itself. These elegant, bright and matte gel polishes contain golden flakes. The usage is the same as with the decoration colors. For the arrangement of sequins, we recommend to use a thinner brush. You can use it on its own or also for decoration, it can be perfectly combined with the new S015 and S016 Sens gel colors.

2. SENS FLASH '3G POLISH' (GEL POLISH)

Light reflective and sparkly 3G Polish which is "only" a very vivid and sparkly gel polish in normal circumstances. But if it gets a light from the side or from the back it will be very shiny and sparkly. If you use a matte top gel, it will have a beautiful marble effect.

**3. SENS MILKY '3G POLISH' (GEL POLISH)
WHITE AND ROSE**

The SENS '3G' (Gel Polish) product family is called MILKY after the effect since it has yellowing-free milky white and a soft feminine pinky shade. The Milky 1 is mild, while the Milky 2 is highly pigmented.

3 STEP CRYSTALAC

EXTRAORDINARY DURABILITY AND FABOLOUSLY VIVID COLORS IN 3 STEPS

Extraordinary durability and fabulously vivid colors in 3 STEPS. This product is providing you the persistency of the color gels but it in a with the ease of polishes. It spreads gently on the nail surface. The curing time is 2-3 minutes in LED, but it only takes 1-2 minutes in UV, so your clients dont have to be careful with them as with a polish. Thanks for the PolyHybrid technology it is more durable and and has a better coverage rate. These colors are highly pigmented. The attached brush is perfectly matches the surface of the nail plate, so you can work more precisely and smoothly. This unique jar is not just spectacular but practical as well: your customer can easily pick their favorite color just look at them. The Base Gel of this product can be the Compact Base Gel, Compact Base Gel Plus, Builder Base Gel, Base Gel, Color Up Base Gel. For Top gel, we recommend you to use the followings: Clear 0/Top CrystaLac, Cool Top Gel Universal, Mattever Top Gel and Cool Top 4 Dark. The duration of the 3 Step CrystaLacs are approximatly 3 weeks. It can be soak-off about 10 min (deports on the thickness of the layer and the material what you use for removing). The curing time is 2-3 minutes in UV lamp , 1-2 minutes in LED lamp.

CN Advice:

For thin nails we recommend you to strengthen the nail plate with Compact Base or Elastic Hardener Gel.

The big glittery 3 STEP Crystalac are denser than the usual gel polishes, so when the material starts to run out, it can be extracted with the 4 gel brush too.

1.

NEW! CONFETTI CRYSTALAC

The new Confetti collection of the 3 Step CrystaLac product group is reminded of the gatherings of friends or family, parties, a good holiday, all the joyous experiences that bring happiness to life. These Milky shades contain different sizes of colorful glitters and they can be used individually in two thin or one normal layer. (Depends on the strength of the lamp.) There are bigger grains in it so recommended to use a 0 Short or Art Design brush to align the particles. They come in all shades of mica, so they look great combined with all the popular spring and summer colors.

2.

SPECIAL EFFECTS

CHROMATIC CRYSTALAC

Bring some twist to your work with the Chromatic Crystalac, which has a color-changing, hologram-like effect, a new member of the 3 Step CrystaLac. Gleaming playfully in the sunlight, the color-changing effect has long been the favorite for a long time which was not available in 3 STEP gel polish ever before! The usage of this product is identical to the other 3 Step CrystaLacs, despite that the result will be wonderfully glittering and sparkling in the sunlight. It will cover nicely on its own, but you can use different colors, it depends on what kind of effect you would like to achieve. The curing time is 2-3 minutes in UV lamp and 1-2 minutes in LED. CN Advice: The Rosegold shade is a perfect match to the Cover nr. 2 CrystaLac.

GLASSY CRYSTALAC

THIS GLASSY EFFECT WILL MAKE EVERY COLOR MAGICAL AND BEAUTIFUL. This glassy effect will make every color magical and beautiful. These flexible, soak-off gel polishes are capable of creating many kinds of effects and are available for a limited time. Use them with the Tiger Eye Infinity CrystaLacs, the glittery CrystaLacs, or the ChroMirorr Pigment Powders for breathtaking results! Curing time: 3-4 min (UV); 2-3 min (LED)

MOSAIC CRYSTAL LIQUID

Go crazy with our new spring shades by the Mosaic Crystal Liquid decoration gel. Use this on vivid color or any sparkling material and let the liquid do its job! If you would like to reach smaller cracks, apply it in a thin layer but if you want to see more massive, more spectacular cracks, use it in a thicker layer.

SPECIAL EFFECTS

AURORA CRYSTAL LIQUID

The Aurora Crystal Liquid is an art liquid that can change the color depending on the temperature and it will look like the Aurora Borealis a.k.a the northern light. You can use it on any CrystaLacs or Color Gel surface, but we recommend you to use a darker shade to prevail over the whole color scale. Use this way: Matte (use a buffer) the non-cleansing base or if you use a material that requires cleansing, cover the surface with Cool Top Gel Universal and then matte the surface.

Use any of the patterns (tendrils, flowers geometric patterns, etc.), then apply Aurora Crystal liquid to the nail surface, and wait for it to dry on air. It needs 3 -4 minutes depending on the thickness of the layer, which can be faster if you are using f a fan. When it is dried, the product will be translucent (see-through). After this, you have to file the edge of the nail and finally cover it with Cool Top Gel Universal and close it. Attention! If you use this product for the whole nail plate, the material won't remain durable. Use it for decorations that don't reach the edges of the nail plate.

WATERPRO CRYSTALAC

NON-CLEANSING, SOAK OFF, CRYSTALACS FOR THE PROFESSIONAL „WATERWAY” TECHNIQUE

You can drop any type of 3 STEP CrystaLac or ONE STEP CrystaLac into this noncleansing, soak off WaterPro CrystaLac and with a brush (0 Short or 0 Long) or with a nail art needle you can create different designs.

Marble nails with Waterpro CrystaLac

This nail on the picture is made with **3S133** and **3S149 CrystaLac**. The decoration is made with **WaterPro CrystaLac** and **Glam Glitters 3** by Pásztor Dóra.

SPECIAL EFFECTS

COVERPRO CRYSTALAC – WHITE

This regrowth free technique was brought from nail sculpting to gel polishing. We create the regrowth free gradient in gel polishing, like we do in case of artificial nails. As the color is mashed towards the root of the nail, the regrowth will remain invisible. We recommend to use it for french nails.

White

COVERPRO BRUSH

Rounded edges, natural hair. Especially developed for this technique.

Rounded
Marten fur

AQUAINK CRYSTAL DROPS

The new generation among the art liquid product lines. Faster than ever, and easy to use. The best base color for this material is white but you can use any pastel or „full cover” color (Milky Rose Compact Base Gel or the new Crystalac Cover Nr. 1). What is important that the surface must be scratch free and completely matte.

Recommended brushes: Phantom, Art Design, Aquarell. Relative liquids: Nail Prep, Cleanser, Acryl Remover, Easy Remover.

Layer order: color, Cool Top Gel Universal, scratch-free buffing, AquaInk Crystal Drops, Cool Top Gel Universal (we don't recommend using Cool Top 4 Dark, it could cause fading).

SPECIAL EFFECTS

TIGER EYE CRYSTALAC

REAL TIGER EYE EFFECT, THANKS FOR THE SUPER STRONG MAGNETS

We can see a unique tiger eye effect on the nail as we move the hands in the lights: the reflection of the light will move around on the nail. Because of a very special component, we can control the particles inside the gel, using the magnets. Use the magnets after the 2nd layer. Hold still above the surface of the nail around 3-4 mm for 4-5 sec and then cure it. Curing time: 2-3 minutes, LED 1-2 minutes.

TIGER EYE INFINITY CRYSTALAC

This product line has been waiting for a long time now! The Infinity tiger eye effect not just reflects the lights, it even changes its color! It is now available in 9 beautiful, highly pigmented shades. Every shade changes if you look at it from a different angle and it reacts to the natural warm/cold lights and artificial lights differently!! One shade is not just providing us only one, but three different colors to see.

Curing time: UV: 2-3min, LED: 1-2min

NEW COLOR! TIGER EYE INFINITY CRYSTALAC HOLO

The latest trend among Tiger Eye Infinity Crystalacs is the Holo shade, which not only shows a glowing-moving stripe but also sparkles like a rainbow on the nail surface when magnetized from the 4 sides. Different dimensions of the material can be achieved by smearing the magnetic holo mica on nails with different colored base. Attention! You have to use the same side of your magnet -for all 4 sides – to earn the desired effect.
