2024/2025 WINTER EXTRA

Miss World Hungary 2024

2024/2025 WINTER EXTRA NOVELTIES!

2024/2025 WINTER TREND COLORS

Dark Shadows

Dark, mysterious, and stunningly elegant, the shade Dark Shadows embodies the perfect harmony of drama and elegance. The deep colors suggest depth and mystery, capturing the imagination. It's an ideal choice for evening events or anytime you desire a slightly more mysterious, sophisticated look. When combined with metallic, shimmering tones, it further highlights the contrasts.

Italian Ruby

Italian Ruby is like Italy itself: vibrant, passionate, and sophisticated. The deep, rich red shade combines classic Italian style with the splendor of a ruby gemstone. This color symbolizes love, passion, and strength, capable of enchanting and making any look unforgettable. It can be paired with cream or gray to soften the drama of the deep red, while metallic tones can further enhance its brilliance.

The nail set was made with Xtreme Fusion AcrylGel in the Glow Baby shade, the new 3 STEP Full Platinum shades FP6 and FP7, silver and black micro beads, and Nova Crystal rhinestones.

Brand new Sens Spider Gel Clear

FLEXIBLE GEL

This long-lasting decoration gel can be stretched without tearing, making it ideal for creating geometric and twisted patterns. It can be applied using a decorating needle or brush.

Cleansing free, it can be combined with ChroMirror, as well as pigment and effect powders. For easy removal from the skin, the use of a skin guard is recommended. Although the material is cleansing free (clear Bubblegum), for an even shinier effect, we recommend wiping with Cleanser after curing, followed by rubbing in the chosen chrome powder to achieve a mirror-like finish. This technique allows for the complete removal of any residue from surrounding areas after dusting off the powders used, resulting in sharper, more defined patterns.

Curing time:

1-2 minutes in LED lamp, 2-3 minutes in UV lamp.

Brand new Sens ChroMirror Deluxe

CHROME POWDER / SOLARA, ASTRA

The Sens ChroMirror Deluxe collection expands with two stunning intergalactic shades. Solara, with its warm tone, shines for sun lovers even in the cold months, while Astra captivates with its frosty shimmer.

Stand out from the crowd and be extravagant: use them on both light and dark base colors, or combine them for even more exciting and festive designs.

CN Advice: For long-lasting results, use a non-acid primer before covering with Cool Top Gel or Sens Top Gel. To increase durability, apply a double layer of top coat.

CN Advice: For a uniform, shiny effect, it is advisable to wipe the cooled top coat with Cleanser before rubbing in the powder.

"The first pieces of the Pearly collection are still in high demand at the salon, but what happens if we spice up this pearlescent, elegant effect with a seasonal, festive touch? If I had to guess, I would say not to keep them too far away, because your clients will love them! Moreover, you can easily and quickly create decorations with just a brush or a nail art tool, which, let's be honest, is a significant advantage during the holiday season!"

Want to create long-lasting, attractive nails quickly? Then try Xtreme Fusion AcrylGels!

CN Advice: For even faster salon work, use our reverse tips for both building and filling!
